Re-Opening Plan

Topics:

Social Distancing

Safety

Keeping the clients safe while under our care during daily activities.

If we don't know how to keep our selves safe then how can we keep client's safe.

Safety is our number one goal.

Sanitizing and wiping down doors handles, bath room, chairs and tables throughout the day.

Keeping distance from each other, this means no close contact unless necessary.

Mask and gloves when handling clients.

Sanitize your hands when you can't wash then wash as soon as possible.

For eating time we will seat client every other chair, using as many tables as needed.

We will take temperatures when client are picked up

Letter will be sent to family member regarding our changes.

Cooks:

Wear mask and gloves when cooking and serving food.

Sanitize and wiping down kitchen area throughout the day.

Transportation:

Sanitize van daily

Wear glove and mask when helping client's on and off the van.

If clients appear to look sick **stop**, and call in before leaving their home.

Wheel chair bound client sanitize wheel chair before entering van

Temperatures will be taken with hand free thermometers.

Care Givers:

When watching clients make sure that they are spaced out for social distancing.

After coughing make sure they sanitize their hands.

Make sure that everyone is wearing a mask.

During activity time make sure everyone wears mask and gloves, only activities that limits touching .

Temperatures will be taken with hand free thermometers.

Glove, sanitizer and mask will be available for both staff and clients

Meeting held 05/18/2020
